Summary

Final-year B.Tech student specializing in MERN Full-Stack Development with hands-on college project experience in building responsive web applications. Proficient in JavaScript, React, Node.js, and database management using MongoDB and MySQL. Passionate about learning new technologies and contributing to real-world software development projects.

Skills

Programming & Querying: JavaScript, Java, SQL
Frontend: React.js, Tailwind CSS, HTML5, JavaScript
Backend: Node.js, Express.js, Spring Boot (Basics)
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code, Google Antigravity

Projects

- Interactive Snake Game | *HTML5, CSS3, Vanilla JavaScript*

February 2026 – March 2026

 - Developed a fully functional, web-based Snake game using vanilla JavaScript, demonstrating a strong understanding of game loops, state management, and algorithmic logic.
 - Engineered dynamic grid generation and responsive UI components using CSS Grid and DOM manipulation. persistent data storage using browser localStorage to save and update user high scores across sessions.
 - Created a seamless user experience with event-driven keyboard controls, real-time score/time tracking, and interactive start/game-over modals.
- AeroCards | *React.js, Framer Motion, Tailwind CSS*

January 2026 – February 2026

 - Developed a component-driven frontend application in React.js, efficiently managing state and props to render dynamic floating cards based on mock data.
 - Integrated complex animations without compromising performance by leveraging Framer Motion for optimized, hardware-accelerated drag gestures.
 - Streamlined UI styling using Tailwind CSS utility classes, ensuring cross-device responsiveness and a cohesive design system.
- Text-to-Speech Converter | *HTML5, CSS3, JavaScript (Web Speech API)*

December 2025 – December 2025

 - Developed a responsive web application that instantly converts typed text input into natural-sounding audio.
 - Integrated the Web Speech API to provide users with dynamic controls to adjust speech rate, pitch, and select from multiple voice profiles and languages.
 - Designed a clean, intuitive user interface to ensure seamless interaction and accessibility across different devices.

Education

- Bachelor of Technology

Under-Graduat: 2022-2026

Babu Banarsi Das Institute of Technology, Ghaziabad

Recent-CGPA: 8.67 / 10
- Intermediate (Science)

2020-2022

Bindeshwari Singh College, Danapur

Percentage: 67 / 100
