SUMMARY

Final-year CS graduate (CGPA 7.8) with 2+ years building full-stack web apps using the MERN stack. Delivered 3 production-ready projects including an AI-powered job portal with LLM recommendations. Proficient in REST API design, JWT auth, and responsive UI. Seeking a Software Developer / Full-Stack Engineer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java	Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Mongoose	Database: MongoDB, MySQL
Tools: Git, GitHub, Postman, VS Code, Vercel, Netlify	Concepts: DSA, OOP, DBMS, OS, Computer Networks, Agile

PROJECTS

AI Job Seeker Recommendation Platform	March 2026 – Present
Tech: MERN Stack, LLM, JWT, Tailwind CSS	
- Built full-stack job portal with role-based auth (Admin, Recruiter, Job Seeker) and 15+ REST API endpoints. - Integrated LLM-based AI recommendation engine for personalized job suggestions based on user profile. - Optimized MongoDB queries reducing average search response time by ~35%; deployed on Vercel.	
Interactive Snake Game	February 2026
Tech: Vanilla JavaScript, HTML5 Canvas, CSS3	
- Built browser-based Snake game with 60fps gameplay, 5 difficulty levels, and real-time score tracking. - Used localStorage to persist high scores; shared with 50+ peers.	
AeroCards — UI Component Library	January 2026
Tech: React.js, Tailwind CSS, Framer Motion	
- Built draggable card component library with Framer Motion spring animations (sub-16ms frame rendering). - Fully responsive across 5 breakpoints; reused as base component in subsequent projects.	

EDUCATION

B.Tech – Computer Science	Babu Banarasi Das Institute of Technology, Ghaziabad	CGPA: 7.8	2022 – 2026
Intermediate (XII)	Bindeshwari Singh College, Patna	67.20%	2022
High School (X)	Gandhi High School, Patna	71%	2020

CERTIFICATIONS & ACHIEVEMENTS

- Full-Stack Web Development – BE10x & Ducat Institute (2025)
- MongoDB for JavaScript Developers – MongoDB University (in progress)
- 3 deployed projects on GitHub/Vercel; actively solving DSA on LeetCode & GeeksForGeeks
